

INTERNATIONAL CONFERENCE ON FETAL GROWTH

Faculty / Keynote Speakers

Prof Katherine Grantz

Epidemiology Branch
NICHD / NIH
Bethesda, Maryland
USA

Birmingham, UK
12-13 October 2026

Short biography

Katherine Grantz, M.D., M.S., is a tenured Senior Investigator at the Eunice Kennedy Shriver National Institute of Child Health and Human Development, National Institutes of Health, and Professor of Obstetrics and Gynecology at Georgetown University. A maternal-fetal medicine physician-scientist, Dr. Grantz leads research on fetal growth and the clinical management of pregnancy complications. Using advanced methods including three-dimensional ultrasound, her team studies fetal growth and body composition to improve identification and management of abnormal growth. Her research also addresses optimal timing of delivery and labor management. Her findings have informed more than 50 national and international clinical practice guidelines.
