

INTERNATIONAL CONFERENCE ON FETAL GROWTH

Faculty / Keynote Speakers

A/Prof W Ganzevoort

University of Amsterdam,
Amsterdam,
Netherlands

Birmingham, UK
12-13 October 2026

Short biography

Wessel Ganzevoort, MD PhD, is an obstetrician-gynecologist, perinatologist, associate professor and Principal Investigator of the Department of Obstetrics and Gynecology of the Amsterdam UMC. His research line focuses on the hypertensive disorders of pregnancy, and on fetal growth restriction, with studies across the spectrum of prevention, diagnosis, management, and long-term consequences. His main projects are TRUFFLE, STRIDER, DRIGITAT, CEPRA and FGR PODS. He is a keen collaborator, mentor of PhD students (12 past, 15 current), and a prolific author (230+ publications among which the international Delphi definition of fetal growth restriction).
